

RETENTION

Calculation of Retention Rate¹: Retention is defined as the percent of students enrolling in consecutive fall or spring terms (e.g., Fall 2015 to Fall 2016). The retention rate compares (a) the number of newly enrolled students who return the following year, to (b) the number of potential returning students. Graduates and completers are not included in the calculation because they have achieved their academic goal and are not expected to return for subsequent semesters. Students previously enrolled at Cox College and non-degree seeking students are also excluded.

PERSISTENCE

Calculation of Persistence Rate: Persistence rate is defined as the percent of students enrolling in consecutive fall and spring terms (e.g., Fall 2015 and Spring 2016). The persistence rate compares (a) the number of new students who enroll in a semester to (b) the number of students enrolled the following semester. Graduates and completers are not included in the calculation because they have achieved their academic goal and are not expected to return for subsequent semesters. Students previously enrolled at Cox College and non-degree seeking students are also excluded.
