

Mission Statement

The mission of the Associate of Science in Radiography (ASR) program is to educate compassionate, professional, and competent entry-level Radiologic Technologists through a strong dedication to a quality didactic, clinical, and professional curriculum with a commitment to lifelong learning.

Goal 1: Demonstrate technical competency by consistently producing diagnostic-quality radiographs using appropriate procedures.

Student Learning Outcomes:

- Students will properly position patients.
- Students will apply appropriate technical factors.
- Students will evaluate images for diagnostic quality.

Goal 2: Use critical thinking skills to make appropriate and responsible decisions based on reason and applied knowledge.

Student Learning Outcomes:

- Students will demonstrate didactic competence as a foundation for critical thinking and analytical reasoning.
- Students display the use of independent judgment and problem solving in the clinical setting.

Goal 3: Communicate effectively with patients, technologists, and providers.

Student Learning Outcomes:

- Students will demonstrate effective oral communication skills.
- Students will demonstrate effective written communication skills.

Goal 4: Demonstrate professionalism.

Student Learning Outcomes:

- Students will demonstrate ethical behavior.
- Graduates demonstrate professional development.

Goal 5: Use the ALARA principle and appropriate procedures to minimize radiation exposure to their patients, coworkers, and themselves.

Student Learning Outcomes:

- Students will analyze and evaluate the concepts of radiation safety.
- Students will apply appropriate radiation safety practices in the clinical environment.
