### Course Description:

BLS is the foundation for saving lives after cardiac arrest. The AHA's BLS Course has been updated to reflect new science in the *2015 American Heart Association Guidelines Update for CPR and Emergency Cardiovascular Care (2015 AHA Guidelines for CPR and ECC)*. This video-based, Instructor-led course teaches both single-rescuer and team basic life support skills for application in both in-facility and prehospital settings.

After successfully completing the BLS Course, students should be able to

- Describe the importance of high-quality CPR and its impact on survival
- Describe all of the steps of the Chain of Survival and apply the BLS concepts of the Chain of Survival
- Recognize the signs of someone needing CPR
- Perform high-quality CPR for adults, children and infants
- Describe the importance of early use of an AED and demonstrate its use
- Provide effective ventilations by using a barrier device
- Describe the importance of teams in multirescuer resuscitation and perform as an effective team member during multirescuer CPR
- Describe the technique for relief of foreign-body airway obstruction (choking) for adults and infants
